

Midwifery Opportunity

Midwifery Services

Provides safe, flexible, primary maternity care to childbearing families centered on the needs of the woman and her family. Midwives are autonomous practitioners working with families in a variety of settings such as in the client's home, in community clinics, and in the Health Centre. Midwifery care is provided to the woman and her newborn until six weeks postpartum. The midwife facilitates continuity of access to care beyond the childbearing years, when necessary, through communication with other care providers or services.

Throughout all main functions, the midwife maintains communication and positive working relationships with community and hospital staff, public health, and emergency medical services. The midwife works cooperatively within a practice group of midwives to provide equitable on-call coverage. The midwife involves themselves in professional activities to enhance competency and midwifery services.

The Brandon RHA

A fully accredited Regional Health Authority offering a wide range of health services and programs to the citizens of Brandon, three municipalities and serves as a regional referral centre for the Westman area.

The Brandon Regional Health Centre provides Acute Care, including a new Single Room Maternity Unit and NICU, Ambulatory Care, Rehabilitation Services, a full range of Diagnostic Services including MRI and Westman Regional Lab.

Community-based services include Public Health, Home Care, Mental Health, Audiology, 7th Street Health Access Centre, Long Term Care and Medical Officer of Health.

The City

Brandon has the added advantage of being able to offer the opportunity and sophistication of metropolitan life with the comfort and friendliness of small town living. Boasting amenities and conveniences generally found in much larger Centres Brandon is truly the best of both worlds.
